## GAMMASOFT 34A

### AMINO FUNCTIONAL MICRO EMULSION

**GAMMASOFT 34A** is an amino functional micro emulsion softener. It has been studied to confers to fabric a soft, sliding and pleasant finishing touch. After using **GAMMASOFT 34A** fabric keeps the finishing also in the following washes and this effect lasts more than normal cationic softener.

#### APPLICATIONS:

**GAMMASOFT 34A** is above all a softener for fibre and fabric. It is used with or in alternative to other softeners. It has a soft and lasting effect resistant to washes. Fabric treated obtained a soft, smooth, dry and sliding touch. Although its amino-cationic nature it does not affect the colour shade or the whiteness of the fabric. **GAMMASOFT 34A** in all types of fibre included cotton at 100% and polyester cotton and synthetic fibre.

**GAMMASOFT 34A** can be applied by padding or exhausting process. For padding, we suggest to use from 5 – 20 g/l. Thanks to its high stability to dilution **GAMMASOFT 34A** can be used in all textile finishing plants. We suggest to dilute the product at the moment of using and to dilute the product only in sufficient quantity in order to satisfy the daily requirements.

#### STORAGE:

**GAMMASOFT 34A** has to be used within 6 months from the production date to keep the maximum efficiency. Keep it between + 5° and + 30°C in well closed and full drums. Don't leave for a long time the product in nearly empty drums. In this case we suggest to pour the left contents in smaller ones.
