FINISH PA

Code GC001FHPA

DESCRIPTION

FINISH PA is a unique single component product formulated to impart excellent hydrophilic properties to nylon fibers which are normally hydrophobic in nature. The product is formulated around a unique polymeric compound that readily diffuses into the nylon fiber. The product is designed to impart several desirable properties to fabric including wicking, absorbency, soil release and a slick and buttery hand.

BENEFITS

FINISH PA has the following beneficial characteristics.

- Lends Hydrophilicity
- Speeds Drying
- Provides Excellent Soil Release
- Lends Slick, Buttery Hand
- Durable to Home Laundering
- Very Economical

TYPICAL PROPERTIES

Color : Opaque

Texture : Liquid

Ionic Nature : Nonionic

Specific Gravity : About 1.02

PREPARATION

FINISH PA is ready to use. Simply dose the desired quantity. Pre dilution is not required.

APPLICATION

FINISH PA may be applied as follows. 0.5 – 5.0% OWF

Note: Fluid dynamics of fabric is greatly influenced by construction.

STORAGE

FINISH PA should be stored in a cool, dry and well-ventilated area.

Keywords: nylon, polyamide, leveling agent, antistatic, hydrophilic, transpiring, lubricant, soil release
